<p>YoungDementia UK</p>	<p>Dementia is considered ‘young onset’ when it affects people under 65 years of age. It is also referred to as ‘early onset’ or ‘working age’ dementia. However this is an arbitrary age distinction which is becoming less relevant as increasingly services are realigned to focus on the person and the impact of the condition, not the age. What is available to you will depend on where you live, and what you are looking for. YoungDementia UK have compiled a list of services across the UK that they know of, that are tailored to the needs of people with young onset dementia</p> <p>Facebook: www.facebook.com/YoungDementiaUK/ Email: www.youngdementiauk.org/contact-us Web: www.youngdementiauk.org</p>	<p>YoungDementia UK PO Box 315 Witney Oxfordshire OX28 1ZN</p>

A community that includes people living with young onset dementia, their family and friends, as well as organisations and professionals who work in the fields of dementia and social care. The network provides opportunities for members to share experience, knowledge and to learn from each other.
