### What are the Zoo trails?:

There are five new walking trails based on zoo animals coming to Kidlington. Did you know that in the 1930's there was a zoo here? From the Bear Cub Trail at 1.7km to the Lion Trail at 5km there's a route for everyone. All routes are accessible to buggies and wheelchairs.

### Finding your way:

A central sign in Exeter Hall grounds will give full information on each route. All the distances start from there but you can join a route at any point. Simply follow the footprints and lines on the ground and signposts up above. These will lead you around each circular route. There are also a few shortcuts marked to shorten your walk.

## On the route, keep an eye out for:

- Bug hotels and nature stops
- Scramble boulders and balancing logs
- Pavement games and activities
- Benches and picnic spots
- Adventurous wolves -How many can you spot?

### Don't forget:

Remember to take water and suncream with you.

# K5 Explorer routes

A selection of mapped walking routes that take in the villages surrounding Kidlington. Discover historic sites and explore the countryside on routes that connect with the Zoo Trails.

- Have fun with your family or friends
- Get active outside for body and mind
- Discover new paths you've never walked before
- Enjoy nature on your doorstep
